

# Car-Slot Allocation Information

Especially vacation residences often have a problem with visitor parking shortage. Despite lots of slots are free (owners are away) the free slots cannot be used. It's not known when the owner comes back and anyway without permission, another parking slot must not be used. Some vacation residences contain outdoor parking and indoor parking. Especially in wintertime it would be great, if outdoor slot owners could put their car indoors, to avoid snow-shoveling and ice scraping.

This Car-Slot program solves this problem. Each parking slot owner can make his slot available temporarily.

For visitors and outdoor slot owners the program shows like this:
